REQUIREMENTS

This list will contain all the features necessary in order to edit/run successfully (or this is how my team and I managed to run and edit this project).

- Eclipse EE (I used Oxygen 5.0.0)
- JDK and JRE 1.8.0
- Apache Tomcat v8.0.48 (or any other server)
- MySQL Workbench 6.3E (or any other database)
- MySQL Server (latest version)
- JSTL 1.2 (or the version that is compatible with your JDK/tomcat)
- Java mail jar files (mail.jar, smtp.jar, servlet-api.jar)
